# The ALLA PRIMA Oil BRUSH Set

**A**lla Prima; Italian, meaning first attempt, commonly known as the 'wet-on-wet' technique. This brush set consists of 15 of our most popular Oil brushes, perfect for Alla Prima. When a softer approach is required for laying on paint, the variety of this set is ideal. We've selected some of our most popular shapes and sizes. Although this set is sold on the longer handles we can make them on the short, just ask.

## SET CONSISTS OF 15 BRUSHES

(ON LONG HANDLES):

Ivory Filbert *Sizes: 2, 4, 6, 8*

Ivory Long Flat, *Sizes: 2, 4, 6*

Ivory Pointed Round, *Sizes: 2/0, 0*

Series 279. Masters Choice Long Flat, *Size: 4*

Series 278. Masters Choice Long Filbert, *Size: 4*

Series 105. Masters Choice Fan, *Size: 4*

Eclipse Extra Long Comber, *Sizes: 1/4", 3/8", 1/2"*

# A MESSAGE *from* ROSEMARY

Dear Artist,

**I** hope you will enjoy browsing through my catalogue. When I started making brushes some 39 years ago, I never dreamt we would be where we are today. My trade has taken me all over the world, both sourcing materials and learning different styles of manufacturing. It is from these resources that I have developed my own method of making brushes "my way". I have trained a team of highly skilled brush makers to follow suit. I am passionate about art and I hope this shines through in our products.

In dealing with artists direct, I'm able to offer exactly what you want in terms of quality, design, price and a fast service. I'm proud to be a family business who works hard at offering quality and service "like it used to be". I continue to offer a high quality product at a competitive price. If you compare my brushes "like for like" with the high street you will enjoy massive savings of sometimes 60 percent. An added bonus is no hassle shopping, a packet will arrive through your letter box.

I have loved and lived art all of my adult life and so to me art is a way of life. Many of you will have met my daughter Symi who announced she was joining the family business some 10 years ago following gaining her law degree. Symi shares my passion for art and is the best Sales and Marketing Director I could have ever wished for. She goes above and beyond to tell the world who we are and where we are. How many folks go to work with their best friend? I'm blessed. Symi has certainly taken the company forward and we are top of our game both in social media and public relations. I believe we are now the biggest brush manufacturer and supplier in the United Kingdom. I watch as others copy our new ranges and feel proud to have been "The First" to create them.

The year of 2020 threw us all and a worldwide pandemic brought with it much sadness and anxiety. Our team worked throughout, helping artists everywhere to either continue painting or in many cases, pick up a brush for the first time. Let's hope 2023 brings with it hope and healing. For many, art has been their saviour, bringing us all together.

Finally, I would like to take this opportunity to thank all of those artists both professional or amateur who have endorsed and used my brushes; Some of you for the entirety of my career. Without each and everyone of you Rosemary & Co wouldn't be where we are today. A big thank you to you all. So, if you are as passionate about art as we are and need top quality brushes, you've come to the right place! We look forward to serving you.

Happy Painting!

*Rosemary Thompson, Managing Director.*

## ROSEMARY & CO Master WORKSHOPS

Throughout the year we welcome many of the world's leading artists. Join us in 2023!  
[www.workshopsinyorkshire.com](http://www.workshopsinyorkshire.com)

### *Do YOU run an ART group, ATELIER, or SCHOOL?*

If you'd like us to send enough copies of our catalogue for your students we are happy to do so. Get in touch! The same goes if you'd like us to visit.

### **SmART Points REWARDS**

With the launch of the new website, we have introduced SmART points! This will allow you to earn points that you can later spend by doing what you were already doing.

The website will calculate the points you will earn, however you must set up an account online for these to accrue. For more information, please visit our website and search for smart points.

### **THANKING *our* ARTISTS**

Many thanks to all the artists who contributed to this catalogue in both artwork and endorsements. We couldn't have done it without you.

# CONTENTS

BROWSE *and* ENJOY...

**I**t's difficult to know where to begin when there's so many different brush ranges. Let's try and make it simple to start with!

For Watercolours, look at our Golden Synthetics and the Red Sable Blend. Where one can afford try Pure Squirrel, Pure Red Sable and Kolinsky Sable which would be the best money can buy. For Oils we recommend you start with the Ivory synthetics. Our Evergreens are slightly softer and the Eclipse even more. The Masters Choice are perfect for blending, as are the Ebony (a hidden gem) and Sables. Don't forget bristles! For Acrylics our Shiraz are a best seller. Truthfully any of our synthetic ranges are ideal for Acrylics.

# PURE *Red* SABLE

Ideal for Watercolours and Oils (the latter usually preferred on the long handles). The natural characteristics of this hair offers a good ‘belly’, allowing liquid holding capacity to be greater than the Golden Synthetics, for example.

This hair has a beautiful spring and upon touching the paper, will flow and release water similar to a fountain pen. For Oils, the Red Sable are a good choice if one can afford, and where a softness with a delicate spring is required. We offer a large range of shapes and sizes and also have brush sets available on page 78 if you're struggling where to begin with your brush collection or would like the perfect gift.

### ◀ SERIES 99 - Pointed Rounds

*This brush points and springs beautifully. Ideal for those starting out in Watercolours, yet also used widely by professionals and teachers alike; the Series 99 are a great starting point. As brush makers, there is no finer hair to make with than that of Pure Red Sable and Kolinsky Sable. It's our treat to make these for you.*

### \*Brush Set Available

*Set 80 (page 80) consists of 5 beautiful Red Sable brushes for the artist who wants to progress from nylon.*

# PURE *Red* SABLE

## ▼ SERIES 88 - Riggers

*Often when the finest line is needed, it's frustrating to re-apply pigment time and time again. The riggers are ideal for a thin, fine and continual line. Ideal for branches, grasses, rigging on ships and hair.*

## SERIES 93 - Spotters ▼

*The shorter length of the belly to the ferrule allows for a more bulbous and controlled mark. This shape is most popular for botanical artists, but worth trying if you like experimenting. The point may appear shorter, but they are still super sharp.*

## SERIES 95 - Fans ▼

*Fans are popular in Oils for blending and knocking back edges. Watercolourists love them for creating arches in trees, grasses and foliage.*

# PURE *Red* SABLE

## ▼ SERIES 77 - Short Flats

Also known as Brights, these are ideal for landscapes. They're great for blocking in and larger washes. Popular for windows, rooftops, nice large skies, architecture and so on.

## Top Tip!

In Oils, the Pure Red Sable are a real treat. If you want a great blending brush which holds a nice sharp edge, the Pure Red Sable Flats are perfect.

# PURE *Red* SABLE

▼ **SERIES 90 - Lettering**  
*Designed for signwriters and calligraphers.*

▼ **Series 7350 - Pure Sable Filberts**  
*These come to a beautiful and versatile point which enables a sharp side edge or large wash.*

**SERIES 79 - Domed Rounds ▼**  
*A brush without a point, by popular request!*

**SERIES 78 - Angulars ▼**  
*Great for cutting in edges from thin to thick lines.*

# PURE *Red* SABLE

## ▼ SERIES 101 - Rounds

*These are made with our best quality Red Sable hair, which is renowned for it's liquid holding capacity and spring.*

*They are fashioned on a matt burgundy handle which is bulbous near the ferrule, enabling the fingers and the hand to sit comfortably. The Series 101's have proved popular with anyone who holds a brush for a long period of time.*

## SERIES 98 - Triangular Pointed Rounds ▼

*By popular request, these triangular shaped handles are ideal for those who suffer from arthritis. The Pure Red Sable points are beautiful and they hold a good amount of pigment. They feel lovely.*

*The 98's are popular amongst miniature artists too. An added bonus - they don't roll off the table!*

There are many different shapes and sizes in the Pure Red Sable range. They work beautifully in Watercolours, Oils and Acrylics. For cleaning tips turn to page 88.

*Images above courtesy of (left to right) Anna Mason, Shirley Trevena and Stewart White.*

## SERIES 92 - Micro Sables ►

*Tiny tufts of hair tapered to a fine point for retouching and fine detail. A must for miniature painting where micro detail is required.*

## ◀ SERIES 91 - Filberts

*Also known as 'cats tongues'. Beautiful for petals and botanical painting.*

## SERIES 96 - Micro Sables ►

*This range of micro sables is formed to a beautiful 'tight' point for precision work. Ideal for miniaturists and model painters as well as botanical artists and cake decorators.*

## ▼ SERIES 81 - Domed Filberts

*A nice domed shaped head rather than the 'cats tongue' style which tends to be more pointed. Perfect for Oils, allowing that soft blending finish.*

# KOLINSKY *Sable*

The Kolinsky (Mustela Sibirica) is a species of the Mink family, a member of the Weasel clan and a native to Siberia and Northeast China. There is no doubt Kolinsky is the best hair available for the manufacture of artists' brushes due to being conical in shape, strong in character with a long tapered point and thick belly. The excellent snap and spring together with immense liquid holding capacity make them a first choice for Watercolourists.

The high cost of the hair being the only major drawback (usually weight for weight three times the price of gold). Once used however, the difference compared to other ranges is well worth the difference in price. These are any Watercolourists dream range.

### ▼ SERIES 22 - Designers

*A beautiful tapered sharp point somewhat longer than the Series 8's and slimmer than Series 33's. Ideal for drawing and expressive work where continuity of flow is required.*

### SERIES 8 - Pointed Rounds ▼

*Forms a precise tapered point for 'drawing' and flow whilst having the 'belly' in just the right place to carry liquid elegantly. This is the brush many of you have been waiting for.*

Series 22

# KOLINSKY *Sable*

## ▼ SERIES 1 - Mops

*As brush makers, there is no finer hair to work with. I have been making this style of brush for many years, the name 'Mop' usually implies large dense brush for applying a wash but I believe my Kolinsky Sable Mops are much more than this! I have created a unique style of brush for Watercolour. Unlike the more popular ferrule construction, these are handmade and tied into a quill style 'sleeve' then wired on the outside to secure the bundle and head to the handle.*

*The end result fashions a real gem of a Watercolour brush. Holding masses of liquid, tapered to a sharp crisp point, all the characteristics of Kolinsky Sable Hair. For the artist who enjoys expressive painting, maximum water retention and yet, a drawing tool for precision.*

*We offer the Kolinsky Sable Mop in a travel brush. See page 19 for more information.*

## SERIES 441 - Half Riggers ►

*Designed and requested by you, the artist. For those who find the standard rigger difficult to control, the 441's offer more precision due to a shorter length.*

**1:1**

# KOLINSKY *Sable*

## ▼ SERIES 11 - Almond Filberts

*A tapered point and a flat body allows the belly to fall into place, hold the liquid and flow on the paper like no other. The sharp point allows for detail, yet will wash and flood the paper. A little gem!*

## SERIES 731 - Filberts ▼

*For broad strokes and perfect detail from the point. The tip has such a fine point, the most intricate detail for botanical and bird painting can be achieved.*

## SERIES 66 - Filberts ▼

*A beautiful petal brush and a favourite with botanical artists and miniaturists.*

### Top Tip!

*Consider Kolinsky Sable a long term investment. Personally, as a brush maker this is my absolute favourite hair to work with, indeed a privilege. The Rolls Royce of brushes!*

## ▼ SERIES 52 - Fans

*Perfect for blending and softening edges in Oils and offers special effects in Watercolour.*

# KOLINSKY *Sable*

## ▼ SERIES 55 - One Stroke

*A flat chisel shaped brush comes to a razor edge, for washes, skies and architectural strokes.*

*Traditionally, these were used by signwriters and calligraphers who quite literally required, one stroke.*

## \*Brush Sets Available

*Our Set 60 consists of 5 Kolinsky Sables brushes including Series 55, all on the short handle. See page 79.*

*Sharp fine lines leading to bold strokes.*

## ▼ SERIES 331- Combers

*Also known as a rake, they make perfect grasses, feathers, fur and hair.*

## SERIES 60 - Sword Liners ▼

*Offering continuous flow due to a magnificent water holding capacity, these are a favourite.*

*The 3/8" is the most popular size of all the combers.*

# KOLINSKY *Sable*

## ◀ SERIES 332 - Extended Points

*The extended central point allows water to flow through from the reservoir in the belly.*

## SERIES 44 - Riggers ▶

*Ideal for long, thin lines and the 'rigging' on ships giving an even flow. They carry lots of pigment.*

## ◀ SERIES 323 - Spotters

*This shape is a favourite amongst botanical painters. The shorter tip and thicker belly creates beautiful petals.*

# RED *Sable* BLEND

A mixture of sable and synthetic blended together offers the best of both worlds. Sable holds the liquid and the synthetic offers the spring and durability, whilst maintaining a favourable price. A good all rounder for Watercolours, Oils and Acrylics.

### ▼ SERIES 401 - Pointed Rounds

*The larger rounds are brilliant for laying on colour whilst the smaller rounds are ideal for finer detail.*

### SERIES 402 - Designers ▼

*Tapered to a much longer and finer point allowing the artist to 'draw' with a brush. Ideal for general Watercolour work as well as botanical.*

Series 401

# RED *Sable* BLEND

## SERIES 767 - Beaver Tail ▶

*This luxury wash brush works well for backgrounds and sharp edge work. Fashioned on a beaver tail handle for added comfort, the 1" is a firm favourite though any size in this range is a real treat.*

## ▼ SERIES - 768 Short Flats

*Also known as a Brights, these allow for sharper edges and more control.*

## SERIES 769 - One Stroke ▼

*Great liquid retention for large, broad strokes.*

# RED Sable BLEND

### Top Tip!

The Red Sable Blend are a brilliant step between synthetic and sable. They are a good opportunity to feel the benefits of the sable hair, with the cost of synthetic in there too.

### ▼ SERIES 721 - One Stroke

A Sable and Ox Ear mix. Used extensively by signwriters and yet popular with Watercolourists when a firm stroke is required. Another alternative is our series 90.

### ▼ SERIES 771 - Riggers

The rigger shape is similar to a round but with much longer hair, also referred to as a script or liner brush. These are a hidden gem!

### SERIES 772 - Daggers ▼

A useful brush, the dagger is very adaptable and can be used to create long flowing lines. When pressure is applied and the brush 'twisted' through the stroke you can see oriental grass appear as well as petals. Also available as a travel brush, see page 19.

### SERIES 770 - Sword Liners ▼

By popular demand, the beauty of this shape allows a fine line (without the tremble sometimes associated with a rigger) and gives amazing effects when twisted side to side.

# ORIENTAL

Designed for Japanese and Chinese style painting and calligraphy. These brushes are manufactured in the typical way using soft goat or wolf hair centres surrounded by a mix of Pony and Sable and dyed to resemble a Pure Sable brush.

## SERIES 36 - Pointed Bamboo ►

*Handmade in the traditional oriental method. Each brush has a large carrying capacity for broad stroke work and calligraphic marks, whilst the sharp points allow for intricate details.*

*The Series 36 are finished with a bamboo style handle which makes them lightweight. The Series 36 and 30 are ideal for paper, ink and silk painters. Wash thoroughly before using these.*

## ▼ SERIES 30 - Pointed Walnut

*The Series 30 are a beautiful addition to your oriental brush range. The walnut handle makes them a luxury to hold and paint with. The length of this hair ensures a large water carrying capacity and they are designed with a beautifully sharp point.*

# PURE *Squirrel* HAIR

Pure Squirrel hair points as well as Kolinsky and Red Sable, but has very little ‘snap’. Squirrel hair has a great colour carrying capacity for Watercolours.

## ▼ SERIES 48 - Flat Wash

*Ideal in Watercolour for washes and loose expressive work. They are great for dusting, fine lacquer and both large and small backgrounds.*

## ▼ SERIES 43 - Pure Squirrel ‘Tinter’

*The visibly short hair makes this range soft and delicate. The Series 48 are handy for control in smaller areas where minimum paint distribution is required.*

## SERIES 42 - Pointed Rounds ▼

*A beautiful tapered point for Watercolours, glass and silk. The larger sizes make an ideal wash brush yet still hold an excellent point.*

# PURE *Squirrel*//MIX HAIR

We use a mix of Canadian and Russian Squirrel hair and our latest synthetic version. As with all of our brushes, this range is handmade to the highest quality and provides the Watercolourist with a hair that carries and distributes water well. A must for your Watercolour arsenal.

## ▼ Sienna Synthetic Mops

*Originally made using a birds quill, nowadays a soft pliable, yet durable polypropylene is used to house the brush head. This style of brush is very popular for those who want one brush for detail and larger washes too. Vegan friendly.*

## SERIES 41 - Pointed Oval Wash ▼

*Popular for loose style work and 'wet on wet'. The flat body provides good density of hair which acts like a reservoir.*

## ▼ SERIES 336 - Posara Brush

*A beautiful extended point brush which acts as a rigger but with a reservoir 'belly' to enable the retention of a good volume of liquid.*

*Please see page 19 for Squirrel Travel brushes.*

## SERIES 39 - Pure Squirrel Swords ▼

*Pure Squirrel hair points as well as Kolinsky and Red sable but has very little snap because the hair isn't very resilient. A flat body with good density of hair acting as a great reservoir.*

*The tip useful for non-specific detail.*

# RED DOT *Collection*

We all know that feeling, whether your painting is being exhibited in The Tate, A Gallery or your Village Hall Exhibition... You take a second glance and your heart skips a beat, there it is... The Red Dot! In developing this new range of brushes we had that same feeling. We did it! Finally, a synthetic fibre like no other. A synthetic fibre to replicate Sable like never before. With all the qualities of natural hair but 100% synthetic. This range is so exciting for Rosemary & Co. Works beautifully in Watercolour, Oil, Acrylic and in-fact all mediums. Ideal for artists, model painters, face painters and just about anyone looking for a sable substitute. Vegan friendly and economically priced. I hope you get the same “Red Dot” experience using this range of brushes as we did developing and designing them. This is a big milestone in brush making for us. Share our excitement and enjoy The Red Dot Collection.

## ◀ Red Dot Short Flats

*Perfect for short, sharp edge work. A favourite for architecture, landscapes & blocking-in.*

## Red Dot One Stroke ▲

*The long flats are excellent for covering large surfaces, whilst keeping a chiselled edge.*

*We have added more shapes and sizes to the Red Dot Collection! For the Pointed Rounds, Mops, Domed Filberts and more visit our website, or ask!*

# RED DOT *Collection*

## ▼ Red Dot Angulars / Side Loader

The angular shape is becoming increasingly popular across a wide range of subjects including floral, portraits, still-life & landscapes. They allow you to cut-in to your stroke & create unique brush marks.

## Red Dot Sword Liners ▼

Holds lots of liquid to draw a fine line when a steady hand is hard to achieve.

## Red Dot Daggers ▼

Excellent for thin fine lines, brush calligraphy and mark making, but with the body of the brush for a broader stroke.

# RED DOT Collection

## ▼ Red Dot Long Pointed Filberts

*For botanical work, but not exclusively!  
This shape is a favourite for watercolourists.*

## Red Dot Combers ▼

*Delicate to the touch, when loaded with paint the soft edge is perfect for blending.*

## Red Dot Cat's Tongue ▼

*A favourite for petal-like shapes in watercolours & for detail work in Oils.*

*Check out our website to see the new Set 85 from the Red Dot Collection. More shapes from this range will be available on our website.*

## ▼ Red Dot Fans

*The perfect brush for blending & knocking back edge work in Oils. When used dry, they create beautiful arches for trees & grasses. Soft & delicate.*

# GOLDEN *Synthetics*

Commonly called 'Nylon'. There are many types both in colour of strand and diameter. Nylon has some unique characteristics in that its retention, snap and spring are all superb. Although in Watercolour, it will not hold the same amount of liquid as natural hair. The development of Nylon continues to improve, with processors striving to match for example Sable hair. Arguably some artists prefer Nylon as an excellent substitute for Sable and other natural hair. Versatile and hard wearing, suitable for Watercolour, Oil, Acrylic, glass and silk.

## SERIES 301 - Pointed Rounds ▼

*Tapered to a fine point, ideal for precision work, with good control. A good shape allowing a multitude of marks.*

# GOLDEN *Synthetics*

If you prefer not to use natural hair brushes, the Golden Synthetic range is vegan friendly and used by many professional artists. They are also a great starting point for beginners in any medium. We offer a wide range of synthetics across the board, but these are a great place to start!

## ▼ SERIES 302 - Short Flats

*A square shaped head offering precise blocking action; good for windows, walls, architecture and when a sharp edge is needed.*

## SERIES 303 - One Stroke ▼

*Also referred to as a chisel or long flat. The longer length of hair offers a looser stroke. Ideal for broad strokes and washes. Good with lacquer and varnish.*

# GOLDEN *Synthetics*

## SERIES 309 - Sword Liners ▶

Perhaps more versatile than a rigger especially when a steady hand is needed. Holding lots of liquid, the Sword Liner makes very unique marks. Worked swiftly from lower stroke upwards will create amazing bamboo style grasses or rigging on ships. Applying pressure to the stroke will bring you the difference in the marks.

## ▼ SERIES 305 - Cats Tongue

Broad flat body for strokes and filling in, coming together in the centre to a point. Excellent for foliage, petals and leaves.

## ▼ SERIES 312 - Oval Wash

Perfect for clouds and background washes.

## SERIES 311 - Daggers ▼

Ideal for petals and intricate flower work.

## SERIES 310 - Angular Liners, Side Loader ▼

For drawing and cutting in fine lines.

## SERIES 307 - Spotters ▶

*The 'stubby' point is great for when short controlled strokes are required. A must for botanical artists!*

## ▼ SERIES 304 - Mops

*For those who like a 'mop' feel to a brush. This range will help you loosen up whilst retaining a sharp tapered point. These will become a favourite for Watercolour, Acrylic and silk painters.*

*The old fashioned quill style gives great water carrying capacity and although may seem large, have fantastic snap and control.*

## SERIES 344 - Designers ▼

*A longer version of the standard pointed round brush, tapered to a finer point.*

## ▼ SERIES 306 - Fan Blenders

*When wet, will spike for grass effects, or worked semi-dry will create tree tops.*

# GOLDEN *Synthetics*

## ▼ SERIES 2250 - Flat Combers

Our most popular grass brush! When used swiftly it gives the effect of many tiny strokes. The serrated edge allows beautiful marks, a must for animal fur and feathers. Consider this a magic brush!

## SERIES 2230 - Spiky Combers ▼

This quirky shape allows for a much more 'open' stroke. Possibly more ideal for Oil and Acrylic artists due to the more distinct marks, it doesn't get 'clogged' up like the other two combers may.

## ▼ SERIES 2240 - Filbert Combers

Very similar to the flat comber but ideal if a more rounded mark is needed for tree-tops, foliage and reflections.

### ▼ SERIES 315 - Pointed Riggers 'Script'

*Widely used for painting rigging on ships, as the name implies. Ideal for longer lines that need to hold colour and flow through the stroke. If you find using a rigger tricky, look at our Sword Liners.*

### ▼ SERIES 230 - Mini Riggers

*As the name states, it's mini! Longer than the 344's but shorter than the 315's.*

### ▼ SERIES 221 - Longer Riggers

*As requested by artists to flow even further than the 315's.*

### ▼ SERIES 236 - Flat Golden Nylon

*The 'in between' length of a One Stroke and a Short Flat. Gives a firmer mark.*

### SERIES 318 - Triangular Points ▼

*The specially shaped triangular ferrule allows the synthetic to form a good point. When pressed to the paper, this brush creates a stunning petal mark. Try loading it with two colours - beautiful!*

### SERIES 316 - Pointed Cat's Tongue ▼

*These are made with a good 'body' and a silhouette of extruded nylon reaching out longer to allow flow and precision. If you want a filbert that points, look no further.*

*Please see page 19 for Golden Synthetic Travel brushes.*

# GOLDEN *Synthetics*

◀ THE PAUL WEAVER FREESTYLE

*Although a large brush, we have tapered this down to an extreme point. Capable of large washes yet, the sharp point allows the most finest detail. Designed to be used with Watercolour but also suitable for watered down Acrylic. This brush is for those who dare to go large! Don't be intimidated.*

▼ SERIES 222 - Flat One Stroke Synthetic

*The 222's are popular for those requiring a nice chiselled edge. A great all rounder for all mediums. A good wash brush, also ideal for varnishing, decoupage, glazing etc. Fashioned on a 'beaver tail' handle. Once wet, these brushes hold heaps of water or pigment and are available up to a 3".*

# SHIRAZ *Synthetics*

A blend of somewhat 'firmer', Nylon filaments giving the strength of bristle, yet offering a delicate feel through the brush stroke. As a result, this range offers a brilliant 'snap and spring', a good holding reservoir for colour and controlled flow through to the tip, with paramount resilience and durability, retaining a good shape. The Shiraz range is extremely versatile for use with any medium. For Acrylics particularly, this range is a great starting point.

## ▲ Pointed Rounds

*The larger rounds are brilliant for laying on colour whilst the smaller rounds are ideal for finer detail. Great signature brushes too!*

## Fans ▼

*Soft enough to blend yet nice to stipple if loaded up.*

# SHIRAZ Synthetics

## ▼ Short Flats

A much sturdier brush with a stronger snap creating sharper edges and control.

## Long Flats ▼

The longer hair results in a looser brush with little snap which allows for more flexibility.

# SHIRAZ *Synthetics*

## ▼ Filberts

*This shape is versatile allowing for broad strokes and softening edges. Particularly useful for blending in figurative work, however, can make beautiful petal shapes and leaves.*

## Short Filberts ▼

*Also known as cats tongues. With a soft, rounded edge, the short filbert is suitable for intricate figurative work and blending. Light to the touch, yet can be loaded with lots of paint.*

## ▼ Riggers

*The Rigger shape is similar to a round but with a much longer fibre, also referred to as a 'script' brush. A must-have for Acrylics and Oils.*

## Sword Liners ▼

*Perfect for making long, thin lines.*

## Daggers ▼

*For a controlled, sharp edge, yet when used on their side they make broad strokes.*

# MASTERS *Choice*

SERIES 279 - Long Flats ▾

The short flats and long flats in this range are ideal for ‘wet on wet’ application. The 279’s are an all-time favourite for Oil artists.

▾ SERIES 274 - Short Flats

MASTERS *Choice*

SERIES 278 - Long Filberts ▼

Both short and long filberts in this range are popular for portraiture. The curved edges allow you to knock back your edges easily. The short filberts are particularly useful for the finer details whilst the longer filberts allow large strokes for the plains of the face.

# The **ROTARY** TREE BRUSH

**This is a Rotary Tree Sable and Nylon Blend with unique properties, which can be used as a tool for painting winter and summer trees.**

The concept is that the bristles are equal length, constructed into a circular form. The brush is rotated, to release the pigment onto the paper.

*For Watercolour*

**THE ROTARY TREE BRUSH  
(ON SHORT HANDLES):**

Rotary Tree. Size: 8 - £12.00

Rotary Tree. Size: 10 - £15.50

## Introducing the **SNOWDROP** Range

We were excited when we were approached by Vladislav to make a range of brushes for him. The Pointed Round brushes needed to have enough liquid holding capacity for Vladislav's style of work and possess spring and of course a beautiful taper and point. The sword was a little trickier to make as a precise angle determined by Vladislav isn't a typical request to a brush maker. We believe we've ticked all the boxes for one of the world's leading watercolourists. We can't guarantee you will paint like Vladimir but we can at least offer you 'his' tools.

**You can see the full range on our website, search SnowDrop.**

**THE SNOWDROP RANGE  
(ON SHORT HANDLES):**

Pointed Round Size: 10 - £8.29

Pointed Round Size: 12 - £9.99

Pointed Round Size: 14 - £11.95

Swordliner Size: 1/2" - £18.00

# IVORY Synthetics

Our Ivory synthetic range are the perfect work-horse in Oils and Acrylics. We have sand-blasted the synthetic fibres with shards of glass to make them push back against your canvas or board. They clean easily and wear down well. This range is a favourite for Plein Air artists, but also those working in the studio too. Since we also recommend trying our other ranges; the Ivories are our most popular Oil brushes across the board. The Ivory is synthetic bristle at its best, a cross between the feel of nylon and hog bristle. If you haven't tried these yet, we urge you to. In the words of the artist who helped with the trials on this range "You've probably got the Holy Grail of brushes - what a treat".

## ▼ Pointed Rounds

*These are ideal for initial drawing and for broad strokes in the larger sizes. In the smaller sizes they are perfect for signatures. They hold their shape well and have a beautifully sharp point.*

## Fans ▼

*When well loaded, these are nice for thick impasto marks. When the paint is applied thinly they make nice grass marks and a stippling effect.*

**L/H = LONG HANDLE**  
(Approx 11 Inches).

## ◀ Long Flats

*The Ivory Long Flats are a favourite for most Oil and Acrylic artists. The longer length allows for a large carrying capacity of paint, but also a nice 'snap'.*

*Ideal for blocking-in, drawing, large plains, portraiture, landscapes and so on.*

*There's nothing much this brush range can't do!*

## Curved Edge ▲

*Originally designed by artist, David Shevlino and Rosemary. David wrote, "I wanted a brush that has the feel of a flat for laying in swathes of paint, but with slightly tapered fibres for getting a softer edge".*

To see David's work visit:  
[www.davidshevlino.com](http://www.davidshevlino.com)

BRUSHES  
ACTUAL  
SIZE

### ▲ Angulars

*This shape is ideal for 'cutting' in and out lines and flooding areas, filling corners and curved strokes. Popular for Portraiture and Floral painting in Oils too.*

### Sword Liners ▲

*A versatile brush for thin fine lines, waves and marks from thick to thin in one stroke. If you've struggled with riggers before, you might like these.*

### Daggers ▲

*Great for unique, short marks. Nice for getting in to areas you can't usually get in to!*

### ▲ Riggers

*Arguably, our most popular riggers for Oils and Acrylics. They hold their points well and have a great carrying capacity. They have a great snap too.*

### Angulars - Beaver Tail Handle ▶

*For those who paint big! Great for covering large spaces, cutting in with a sharp edge and also for varnishing. Fashioned on a black lacquered, beaver tailhandle. Available from 1 inch up to 3 inches in width.*

# IVORY Synthetics

## ▼ Short Flats / Brights

*This range has a fantastic 'snap' which creates a short and precise mark. From the smallest size, right the way through to the 2", they hold their shape well and have a sharp edge. A Plein Air must-have, but a popular all-rounder!*

## ▼ Large Short Flats

*As the name suggests, ideal for covering large areas. They also make great varnishing brushes.*

# IVORY *Synthetics*, IMPASTO *Brush*

The Impasto brush will allow for the technique of laying on paint thickly so it will stand out from the surface giving texture and dimension. Our Ivory synthetics are easy to clean, durable, hard wearing and allow for thick paint application, similar to a palette knife.

*Left image courtesy of Henrik Uldalen.*  
[www.henrikaau.com](http://www.henrikaau.com)

*Right image courtesy of Jason Sacran.*  
[www.jasonsacran.com](http://www.jasonsacran.com)

# ULTIMATE *Bristle*

Made with interlocked bristle hair, which offers the artist a traditional brush but with double the interlock. We take two equal amounts of best quality Chinese bristle and set them opposite each other so that the natural curve is facing inwards. The bristle is selected in length and size to enable perfect balance. Although labour intensive, this gives the artist a hard wearing brush. Easy to clean and a good performer. If you require a 'tighter' brush mark take a look at our Ivory range.

## Filberts ►

*It's worth experimenting with these if you haven't already. Ideal for blending.*

## ▼ Pointed Rounds

*Ideal for initial drawing and blocking-in.*

# ULTIMATE *Bristle*

There's several ways of looking at it with brush shapes. Some folks enjoy flats and others enjoy filberts. In truth, a flat becomes a filbert over time, and visa versa. My advice would be to start with the shape you initially intend for the mark you need.

▼ Short Flats  
*Also known as 'Brights'.*

Long Flats ▼

# EVERGREEN *Synthetics*

The Evergreen range are composed of 100% synthetic fibres which give the brushes a fabulous spring and snap. The Evergreen brushes make precise brush marks, with the short flats giving a sharp edge and the pointed rounds keeping a tight point.

Image courtesy of Alexandre Reider. [www.areider.com.br](http://www.areider.com.br)

### ▼ Pointed Rounds

Perfect for drawing, signatures and for laying down paint. Ideal for Oils and Acrylics.

### Filberts ▼

Popular for knocking back edges and a softer stroke.

Other sizes available.  
(See price list).

# EVERGREEN *Synthetics*

## ▼ Short Flats

*This shape is ideal for blocking-in and laying down broad strokes for landscapes.*

## Long Flats ▼

*This length is soft enough to blend but firm enough to make a mark. A Plein Air must have!*

# EVERGREEN *Synthetics*

The Evergreens are fast becoming one of our most popular ranges for Oils and Acrylics. Originally made as a teaser for Christmas, we dyed the Ivory range green to make them festive. The feedback we received was “make these a range!” and so we did! They feel slightly softer than the Ivory range, yet clean just as easily.

### Daggers ▶

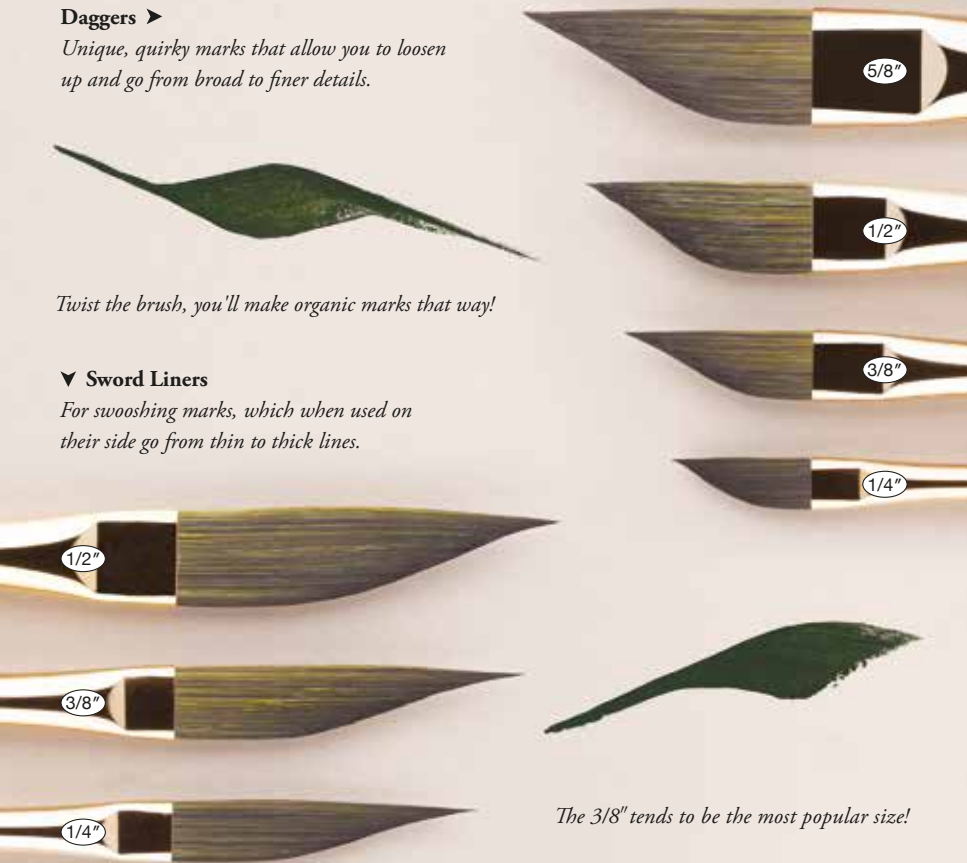

*Unique, quirky marks that allow you to loosen up and go from broad to finer details.*

*Twist the brush, you'll make organic marks that way!*

### ▼ Sword Liners

*For swooshing marks, which when used on their side go from thin to thick lines.*

*The 3/8" tends to be the most popular size!*

### ▼ Angulars

*A chiselled edge creates a great drawing tool with a difference from the rounds.*

Daggers		
Size	Price S/H	Price L/H
1/4"	£7.50	£7.80
3/8"	£8.45	£8.75
1/2"	£9.85	£10.15
5/8"	£11.70	£12.00

Sword Liners

6	£9.50	£9.80
8	£11.75	£12.05

**S/H = SHORT HANDLE**  
(Approx 7 Inches).

**L/H = LONG HANDLE**  
(Approx 11 Inches).

## Egberts ▶

*Ideal for thin, fine lines but when loaded create unique and broad strokes.*

## ▼ Riggers

*For the finest of lines, holding a great amount of paint and distributing it evenly, with a point.*

# CHUNGKING *Bristle*

Chungking Bristle are bristles from hogs raised in the region of the Chinese city of Chungking and are considered to be the best for Oil painting, having long, deep flags. Theoretically the longer the flags the better the bristle. Used mainly for Oil, Acrylic and hobby ceramics. The interlocked 'curved' heads allow retention of shape. We now offer several types of Bristle, but the Chungking were the original. If you like a brush which offers more grain and texture to your mark, look no further. They are inexpensive and a great place to start. However, make sure you clean them.

## ▼ SERIES 2035 - Rounds

Typically, the round brush in bristle would be used for drawing and blocking-in. Many of the Old Masters would have used this shape. Rounds are popular for landscapes, portraiture, still life and so on. Larger rounds are ideal for laying on the paint, whilst the smaller rounds are perfect for highlights and finer details. These are ideal signature brushes too.

## SERIES 2095 - Short Rounds ▼

The shorter round allows for more precise strokes. Packed tight into the ferrule, the belly of the brush is shorter and thus, so is the point, giving extra strength and arguably, more precision.

# CHUNGKING *Bristle*

## ▼ SERIES 2015 - Short Flats/Brights

*Short Flats allow a much sturdier brush with a stronger 'snap', creating sharper edges and control. Ideal for blocking-in and impasto. The Brights in general are popular for Plein Air (outdoor) painters who want a grain or texture to their brush stroke.*

## SERIES 2025 - Long Flats ▼

*The longer hair results in a loose brush with less 'snap'. Once these are loaded up with paint you can make expressive, long sweeping marks without the need to reload. The leverage of the bristle make them really popular for many Oil and Acrylic artists.*

# CHUNGKING *Bristle*

## ▼ SERIES 2075 - Short Filberts

*By request, we've designed a shorter filbert for more precision and control. When loaded up with paint they make really thick marks.*

## SERIES 2085 - Egberts ▼

*A unique brush which allows a looser, more organic stroke. The length of this brush allows for precision, lines and flicks. Try one, it's a must!*

## ◀ CHRIS DI DOMIZIO - Bristle Filbert

*Perfect for the 'dab and smear' technique.*

[www.didomizioartscenter.com](http://www.didomizioartscenter.com)

## ▼ SERIES 2065 - Extra Long Filberts

*Enables the paint to soak and carry superbly saving the artist time to re-load.*

## ▼ SERIES 2045 - Filberts

*Used by many of the old masters, the filbert allows a broad stroke without the harsh edge the flats may give.*

## SERIES 2060 - Large One Stroke ▼

*Ideal for backgrounds and varnishing.*

## SERIES 26 - Chungking Angulars ▼

*The large Angular has a variety of uses but particularly for 'cutting' colours in and out.*

## SERIES 3099 - Large Background ▼

*A good all rounder with all mediums.*

## ▼ SERIES 2055 - Fans

*Fan brushes use a special ferrule which spreads the bristles to form a fan shape. Used for several effects including grasses, fur and often for blending. The drier the brush, the more 'splay' and texture.*

A blend of several natural hairs with a fantastic result for the Oil artist who wants the feel and performance of Sable at a lower cost. Ebony offers a velvet touch and yet is strong enough to work with Oil. We only offer these in three shapes at the moment. This range is a hidden gem, one worth trying!

*'Rosemary' by Richard Schmid.*  
16 x 16, Oil on linen.

# EBONY

## Filberts

*Beautiful for Alla Prima and blending, also popular for portraiture artists in Oils.*

## Short Flats ▼

*Also known as a Brights. This range as a whole are perfect for blending.*

# CLASSIC *Bristle*

A long awaited range designed for the traditional oil painter who likes the feel of a bristle brush and the brush mark achieved, but doesn't like the durability and the way bristle can sometimes 'splay'.

This blend of bristle and strong synthetic is 'interlocked' allowing the brush to retain it's original shape for much longer. You won't be disappointed.

## ▼ Rounds

For drawing and an ideal signature brush. They hold a lot of paint which is perfect when trying to cover large areas.

## Filberts ▼

Oval ends can be used for both sweeping strokes and fine lines when held vertically.

# ECLIPSE *Synthetics*

This synthetic range is made to mimic natural mongoose, at a lower price. A softer synthetic which is nice for Alla Prima and blending. Perfect in Oils and Acrylics.

**▲ Pointed Rounds**  
*A beautiful, strong point for detail and drawing. Also perfect for signatures.*

**▲ Riggers**  
*An old favourite, for longer marks, very thin, fine lines and details.*

**Angulars ▼**  
*Perfect for leaves and petals.*

# ECLIPSE Synthetics

## ▼ Extra Long Combers

A new range, by popular demand. Light to the touch and perfect for Alla Prima. These really do imitate the original mongoose and have become a favourite. Try these!

## Combers ▼

Wonderful for grasses and animal fur. Also blending and knocking back edges in Oils.

## ▼ Fans

Ideal for blending larger areas.  
Very soft to touch.

# ECLIPSE *Synthetics*

## ▼ Short Filberts

Also known as a 'cats tongue', the short filberts are perfect for portraiture. The sharp point allows for details such as the corners of the mouth, eyes and crevices of the nose. All the filberts in this range are popular for different marks.

## ▼ Long Filberts

A new range, by popular demand.

## Filberts ▼

A good all-rounder in Oils.

## Eclipse Domed Filberts ▼

The new domed filberts are a welcome addition for portrait painters and figurative artists alike.

\*Eclipse Domed Filberts only available on long handle.

# SPECIAL *Effects*

## ▼ Snowdrop - Pointed Rounds

Made from 100% synthetic - also vegan friendly the Snowdrops are perfect for watercolours. With a slightly more tapered point, these brushes are excellent for drawing. See the full range online.

## ▼ SERIES 1582 - Badger Softeners/Blenders

This brush is ideal with Oil, for softening and blending. Used in glasswork for 'kissing' the colour and ceramics for feathering, marbling and tonal work.

Larger size available.

## Eradicators - Shiraz Synthetics ▼

A long sought solution to those unintended watercolour brush marks resulting from too much enthusiasm, haste or miscalculation. We now offer an Extra Large too!

## SERIES 32 - Tree & Texture Brush ▼

Designed to simplify the art of painting trees and foliage in watercolour, this special brush has just the right performance to deliver perfect tree foliage.

# SPECIAL *Effects*

## ▼ Smooshing Brushes

*Made from a blend of different grades of badger hair, the new smooching brushes are inexpensive blending brushes for Oils and Acrylics.*

## ▼ SERIES 34 - Foliage & Trees

*Fine mix of coarse yet soft hair for stippling and texture work. Popular for tree canopies and grass.*

## ▼ Series 1580 - Domed Badger Hair

*Mainly used for blending paint into an even and smooth coat. A glass painters 'must have'.*

## SERIES 35 - Deerfoot Stippler ▼

*A blend of soft and medium stiffness badger hair. Popular amongst Watercolourists to create trees, grass, foliage and furs.*

## Series 27 - Badger Fans ▼

*Typically used for Oil painting, badger hair is coarse yet soft making it ideal for stippling and texture. Used for grasses, fur and often for blending.*

*For larger Badger Fans see our series 37 online.*

# QUESTIONS

## *You* ASKED... *we* ANSWERED

*This section is a collation of the most frequently asked questions we receive. I am sure the answers given will prove to be helpful. Of course, if you have a particular query not featured here, then please feel free to contact us.*

---

### **WHICH BRUSH MATERIAL DO I USE FOR EACH MEDIUM?**

We would usually recommend the Kolinsky Sable where one can afford for Watercolours, followed by Pure Red Sable, Squirrel etc. At the moment, there are some excellent synthetic brushes which imitate Sable, thus keeping costs low. If unsure the Red Sable Blend is a great starting point for those who want the spring and snap of Sable, but the cost of synthetic.

For Oils we would usually recommend starting with our Ivory or Evergreen ranges. If you want to try bristle, our Ultimates are popular. For a softer approach and Alla Prima technique look to the Masters Choice and the Eclipse. Where one can afford, Sables are always an excellent choice.

A popular choice for Acrylic painters is the Shiraz, Ivory and any of the Golden Synthetic ranges. We would usually recommend any of the synthetics for Acrylics, and a good brush cleaner!

### **WHAT IS THE 'BELLY' OF A BRUSH AND WHY IS IT IMPORTANT?**

Although a good point is essential, it shouldn't be the sole criterion when choosing a Pointed Round Brush. The belly of the brush is where the bulk

of liquid is held and the most bulbous part, this is when balance is achieved. The bellies of the hairs must be located in the lower half of the head i.e. close to the ferrule than the tip of the brush. If the bellies are too high, the brush will feel 'lifeless' and lack any resilience.

### **WHAT IS THE DIFFERENCE BETWEEN KOLINSKY SABLE AND RED SABLE?**

Watercolourists! This is our most frequently asked question. Kolinsky Sable is the Rolls Royce of Watercolour brushes. They taper to the finest point, hold the most pigment and wear down well. That being said, the Pure Red Sable are a beautiful, and close second. In truth, if you can't feel the difference then you're lucky! Where one can afford we would recommend to purchase Kolinsky Sable, but Red Sable is still beautiful to use!

### **HOW LONG SHOULD I EXPECT MY BRUSHES TO LAST?**

How long is a piece of string! This is a difficult one and really does depend on how often you use your brushes, how well you clean them, what paper, canvas, or board you are using and your technique etc. Remember not to 'scrub or mix' paint with a good point, perhaps use older brushes for the messier jobs.

# *We* LOVE *to* HEAR *from* YOU

---

## **WHAT SHOULD I DO WITH THE PROTECTIVE CAP ON MY BRUSH?**

This is placed on the head by us purely to keep the brush in pristine condition in transit. Once natural hair is wet it will swell and the belly will expand, making it almost impossible to squeeze back into the cap. We recommend throwing them away and storing your brushes without caps. This will allow the brush heads to dry and discourages any mould. We recommend the bamboo brush roll for this purpose.

## **MY SYNTHETIC BRUSH HAS CURLED AT THE ENDS. WHAT CAN I DO?**

You could try the 'boiling water' trick. Carefully pour boiling water into a suitable container, immerse the brush head for thirty seconds to a minute, then reshape and allow to dry naturally. This sometimes revives the twist or curl. However, after continued use, synthetics will eventually curl.

## **WHY ARE YOUR BRUSHES SO LOW IN PRICE?**

I wish I had a penny for each time I've answered this one over the past 35 years! By making brushes and selling to artists directly through my mail order service, I am able to eliminate the 'middleman' or wholesaler. I use the best raw materials I can buy and don't compromise on quality. I have kept the packaging basic too which usually gets thrown away!

## **WHAT IS THE DIFFERENCE BETWEEN LONG AND STANDARD HANDLES?**

Long handles are approximately 11" long, depending on the size of the brush. The diameter of the ferrule dictates which length of handle gives the right balance. Our short handles (also known as standard) are around approximately 6" in length. Most Watercolour and Acrylic painters prefer shorter handles whilst Oil artists tend to favour the long handles. If you're unsure, just ask!

## **HOW DO I KNOW THE BRUSHES WILL BE ANY GOOD IF I CAN'T TRY OR SEE THEM FIRST?**

I offer a full money back guarantee if you are not delighted with my brushes. I take personal pride in my product and I will only sell the same quality that I would expect to buy myself. If you haven't been recommended to me by a fellow artist or have never heard of my company, then please ask around at your local art class, Atelier and artist friends.

Most groups have my customers amongst them. Also, if you have access to the internet then you can follow the links from my website for other artists' comments. I have many professional artists amongst my customer base, whom I have served continuously for over thirty five years!

## **HOW CAN I VIEW YOUR PRICES IN MY OWN CURRENCY?**

We have several currencies available for you to view our prices in. If you look at the top-right of our website you will see a flag icon, click on it and you will see several currency options. If your currency is not listed please feel free to contact us.

## **I'VE ORDERED THE WRONG BRUSHES AND I'D LIKE TO RETURN THEM. HELP!**

We reserve the right to charge a 10% re-stocking fee on any returns which are not defective by manufacture. We will gladly organise a swap for you if you ordered incorrectly, or wish you had a different item, in this case we will normally pay postage for you with compliments but on larger items, or overseas customers we may need to charge the postage at cost.

We will go above and beyond to help you with returns and swaps, but in all instances, these will be at the discretion of the company and will be dealt with reasonably and fairly. Please get in touch with us and we will help you over email or phone. You can also write to us if you prefer.

## Brush CLEANING, *Our TOP tips*

*We often get asked what the best way to clean your brushes is. Truthfully, there are so many different ways and it really does depend on which medium you're using and how often you use your brushes. Here's some tips for you.*

**I**n short, there's a million and one ways, so here are some tips as a basic rule, rest assured over time you'll find your own neat way to do things. The main thing to remember is that cleaning your brushes is an important investment both of your time and your money. The more you look after your tools, the better they will serve you.

### **WATERCOLOUR BRUSHES**

Cleaning Watercolour brushes is easy! Grab your brushes and head to the sink. You can hold them under the tap and let the pigment wash off them with the flow of the water. Get yourself a bar of soap and use the palm of your hand to gently wipe the brushes back and forth to ensure they are clean throughout. Squeeze the water out of the brush and reshape them. Store upright and condition them from time to time. Easy peasy.

### **ACRYLIC BRUSHES**

You must ensure to clean your Acrylic brushes in-between each use; not doing so will allow the Acrylic paint to harden the bristles or fibres and bond them together. We recommend Synthetic brushes over Natural Hair brushes as a general rule since they withstand the

abuse of Acrylic paint and they clean more easily. You must not let the Acrylic paint dry on your brush as this is really difficult to get out. Grab a rag or kitchen towel and wipe away any excess paint from your brush to begin with; this will make the washing process faster and easier. Thoroughly rinse the brush with water and wipe the brush in your palm to get the paint out. You can use soap to speed this process and condition your brushes. An easy option and reliable one is to use the 'Zest-it Acrylic Cleaner'.

### **OIL BRUSHES**

Start with wiping your brushes on a rag or paper towel. Then wash them thoroughly with either soap or mineral spirits. You can buy odourless mineral spirits nowadays too. To clean them thoroughly you can use a dish soap (in England we call it fairy liquid), or overseas you may have Murphys Oil Soap or Dawn. A good tip is not to load the brush right down to the ferrule. You must make sure you clean the whole brush; not doing so will cause it to splay outwards. Oil cleans Oil, so safflower & linseed Oils works too. Be sure to reshape the brush once you've cleaned it through and a great tip by Richard Schmid is to fold card over your flats and filberts and clip a peg on them to hold them in shape.

## CONCLUSION

No matter what works for you, ensure that you reshape your brushes to the way they first looked when you bought them, before you let them dry. If you have round brushes with caps on them, we recommend to throw those away. The protective cap we use is for transport purposes only and unless you have brilliant eyesight and a steady hand, you'll bend back the hairs each and every time you try to get the cap back on.

Always leave your brushes somewhere they can dry completely (do not store them in an air-tight container before they are dry). Invest in a wrap or brush case to carry your brushes. We sell Brush Holders for a few pounds to store your brushes upright in your studio. They are easy to assemble and inexpensive (Search BH50 on our website). Alternatively, we sell beautiful bamboo brush rolls and handmade leather brush wraps (made in-house) for carrying your brushes. Both of these allow your brushes to dry naturally and ensure no mould. The colour of the hairs or fibres will change over time - this is normal and does not affect the performance of the brush. For any synthetic brushes losing their shape you can hold them in boiling water for 30 seconds, this should help pull them back into shape. Natural hair brushes can enjoy a treat of conditioner from time to time, soak them and leave them for 30 minutes - when you come back to rinse it out they should feel nice and soft again.

The best advice one can give is to ask! Ask your teacher and your art friends. If you find a way that works for you then stick with it. Just remember, your brushes are an investment and worth taking care of.

Truthfully there's a million and one ways to clean your brushes. Everyone has their own way of doing things, but I've written more specifically about Oil brush cleaning on our blog.

Visit our blog here: [blog.rosemaryandco.com](http://blog.rosemaryandco.com)

## OUR *top* TIPS!

- 01 **Where possible in Oils & Acrylics we would always recommend using gloves when cleaning your brushes. The same goes for painting in those mediums too. Cadmium's are particularly harmful to the skin.**
- 02 **Gum Arabic is handy to help reshape your brushes. Any good art shop should sell this.**
- 03 **Make sure you have something secure to store your brushes in. We sell Bamboo Brush Rolls and we handmade Leather Brush Wraps. They are ideal for transporting your brushes and to keep creepy crawlies out.**
- 04 **Follow our Youtube channel for videos by our top artists on brush cleaning. We are adding to these weekly. There is lots of information on our Youtube channel.**

# WHAT *the* PROFESSIONALS say

*We thought it best to let some of the world's finest artists have their say...*

## DAVID CURTIS

*South Yorkshire, UK*

"The Rosemary brand name is now so synonymous with visual artists and creative craftspeople worldwide for brushes of sustained durability, excellent handling properties and fine point and shape retention under arduous use in both studio settings and En Plein Air conditions."

[www.djcurtis.co.uk](http://www.djcurtis.co.uk)

## KATHY ANDERSON

*Connecticut, USA*

"I've been using Rosemary Brushes since the day many years ago that Richard Schmid brought them to Putney Painters and said "You've got to try these wonderful brushes!" Thinking they'd be too expensive, I was thrilled to find out they were very affordable. And of course the bonus is to work with the best people, Rosemary, Symi and their amazing staff who I was lucky enough to meet last Summer for my workshop in Yorkshire."

[www.kathyandersonstudio.com](http://www.kathyandersonstudio.com)

## SCOTT CHRISTENSEN

*California, USA*

"I used to drive hours to the best art stores to hand pick brushes depending on their taper, craftsmanship and materials. With Rosemary's Brushes I don't have to worry about quality nor dependability. Quality is in every brush! Without question, the finest craftsmanship, materials, and consistency are found in every purchase."

[www.christensenstudio.com](http://www.christensenstudio.com)

## LIZ STEEL

*Sydney, Australia*

"Having a reversible brush (or two) that you can throw into your sketching kit is indispensable for an urban sketcher and Rosemary & Co have the best range on the market. They have so many amazing top quality brushes."

[www.lizsteel.com](http://www.lizsteel.com)

## RICHARD SCHMID

*Vermont, USA*

"Rosemary's Brushes are my choice as the perfect instruments for painting. No other brushes in the world quite compare to them for performance, superb quality and variety (and they get 55 mpg on the highway!)."

[www.richardschmid.com](http://www.richardschmid.com)

## DAVID BELLAMY

*Pembrokeshire, UK*

"Rosemary's Kolinsky Sables are the Rolls-Royce of brushes, a great joy to paint with and possessing a lively spring that is vital for any Watercolourist. You only have to visit Rosemary's stand to see how popular they are, with Rosemary seeming to serve ten customers at once with a smile on her face and a cheery quip to brighten your day."

[www.davidbellamy.co.uk](http://www.davidbellamy.co.uk)

## GEORGIA MANSUR

*New South Wales, Australia*

"Rosemary & Co brushes are the best in the world. I cannot recommend them highly enough. This is the gold standard all others will have to strive to achieve - simply brilliant!"

[www.georgiamansur.com](http://www.georgiamansur.com)

## LUCY CORBETT

*Director, Welsh Academy of Art*

"It is an absolute pleasure to be able to work with Rosemary & Co brushes; they provide a top quality service. My students and I enjoy using a variety of brushes for charcoal drawings and Oil painting."

[www.welshacademyofart.com](http://www.welshacademyofart.com)

## JEREMY LIPKING

*California, USA*

"I've been using Rosemary's Brushes for several years now, exclusively because they are without doubt the best available."

[www.lipking.com](http://www.lipking.com)

### **EWAN MCNAUGHTON**

*Director, Edinburgh Atelier of Fine Art*

"We always recommend Rosemary's Brushes. The quality is outstanding and customer care is second to none. These brushes are not factory made, they are handcrafted, and most importantly they are crafted by brush makers who understand the specific needs of painters. This is the reason Rosemary's brushes should always be the first choice for artists."

[www.edinburghatelieroffineart.com](http://www.edinburghatelieroffineart.com)

### **NICK ALM**

*Stockholm, Sweden*

"Rosemary brushes enables you to manipulate the paint with a remarkable control. Kick the horse out and buy a Ferrari."

[www.nickalm.com](http://www.nickalm.com)

### **SADIE VALERI**

*Sadie Valeri Atelier, California*

"The superior quality of Rosemary's Brushes is matched by their incredibly responsive customer service. When you shop at Rosemary's you know you are dealing with a small family business and that they really care about their customers."

[www.sadievaleri.com](http://www.sadievaleri.com)

### **TONY PRO**

*San Antonio, USA*

"I've been using Rosemary's Brushes for almost 10 years now and am still happy with the quality and the customer service I receive from her team. From a professional artist's standpoint, knowing the brush maker is as important as knowing the paint maker, and the quality of service and care Rosemary gives is unparalleled."

[www.tony.fineartstudioonline.com](http://www.tony.fineartstudioonline.com)

### **CASEY BAUGH**

*New York, USA*

"I would choose to do an entire painting with one single Rosemary brush rather than use fifty other brushes any day. They're simply the best."

[www.caseybaugh.com](http://www.caseybaugh.com)

### **HAIDEE-JO SUMMERS**

*Lincolnshire, UK*

"I enjoy using the Ivory, Eclipse, Masters Choice and sable brushes from Rosemary & Co every day I am painting because they give great results. As a professional artist I need tools that I can rely on, and I'm secretly a great hoarder when it comes to brushes! I'm proud to support an excellent product that is handmade in the United Kingdom."

[www.haideejo.com](http://www.haideejo.com)

### **MICHELLE DUNAWAY**

*New Mexico, USA*

"Rosemary & Co are my brushes of choice. They are simply the best brushes on the market, thoughtfully and meticulously handmade to give us artists a superb instrument with which to paint with. I also appreciate that Rosemary & Co is a family run business that gives excellent care to their customers and the artists they work with. Their goal is to help us artists create with confidence by creating brushes of exceptional quality."

[www.dunawayfineart.com](http://www.dunawayfineart.com)

### **FRANCIS BOWYER**

*London, UK*

"As a professional artist Rosemary produces beautiful, high quality brushes that I can rely on. As a family run business they have always been a reliable and friendly company to deal with."

[www.francisbowyer.com](http://www.francisbowyer.com)

### **CASEY CHILDS**

*Utah, USA*

"Ever since I began painting my goal has been to create the best paintings possible. To do my best work, I knew I needed the very best tools. Why make painting more difficult than it already is? The fine craftsmanship of Rosemary brushes have given me the ability to achieve masterful brushwork and detail. The type of mark I was seeking became more attainable and Rosemary's brushes have become one of the most significant tools in my arsenal to create high quality work. They truly make some of the finest brushes available today."

[www.caseychilds.com](http://www.caseychilds.com)

**THE LATE,  
EVERETT RAYMOND KINSTLER**

*Connecticut, USA*

"The quality of my brushes is vital to painting. I expect the best and Rosemary's Brushes answer all my needs. Their personal interest, advice and professional abilities make them a pleasure to work with!"

*[everettraymondkinstler.com](http://everettraymondkinstler.com)*

**ANN WITHERIDGE & SCOTT  
POHLSCHMIDT**

*London Fine Art Studios*

"Once you've tried Rosemary's Brushes it is very easy to become a convert. They are all handmade in Yorkshire using the best materials. We find they are the most durable. The amazing thing is whatever your style or taste, Rosemary has a brush for you!"

*[www.londonfineartstudios.com](http://www.londonfineartstudios.com)*

**ANNA MASON**

*Surrey, UK*

"When I first tried Rosemary's Brushes I was amazed at the high quality, and further amazed at the really reasonable price and the fact they were manufactured here in the UK. I've since got to know what is a true family company and found their commitment to customer service is second to none. I'm happy to recommend their brushes and to choose them to make a set of brushes with my name to it, for use with my Watercolour method.

*[www.annamasonart.com](http://www.annamasonart.com)*

**LARA**

*London Atelier of Representational Art*

"LARA chooses Rosemary's Brushes because they offer our students fantastic and affordable quality. We know that they can be relied upon to support our students as they work towards producing the best expression of the painting techniques that they learn at the school. We stock Rosemary's Brushes in the LARA shop in London and enjoy doing business with Rosemary & Co and supporting an independent business - they are always popular with students and workshop students alike."

*[www.drawpaintsculpt.com](http://www.drawpaintsculpt.com)*

**ALEXEY STEELE**

*California, USA*

"From perfection to touch, to the finish on the gorgeous black handles, to the rock solid ferrule that never wiggles and with its head never shedding hairs - it's a masterwork of artisanship. The tools we use become the extensions of our bodies. Rosemary's incredible long Ivory flats are central in my painting. Each brush Rosemary makes is created individually by hand and by love from the heart of the maker. That love transfers into the hand of painters around the world."

*[www.alexysteale.com](http://www.alexysteale.com)*

**STEPHANIE BIRDSALL**

*Connecticut, USA*

"Rosemary & Co Brushes are the only brushes I use, they are my most important tools. Rosemary's brushes are always excellent and the quality is always consistent. I've never seen a company with such a varied selection of brushes and they are constantly adding more. There really isn't anyone like them (Rosemary and Symi, the brains and smiles behind the brushes!)"

*[www.stephaniebirdsall.com](http://www.stephaniebirdsall.com)*

**ROGER JONES**

*Gloucestershire, UK*

"Painting is a language, the variety of brush marks teased out of even a single brush its 'words'. So, more 'words', and articulacy, fluency, and eventually style beckon Rosemary's Brushes for watercolour or oils fulfil this need always."

*[www.roger-jones.co.uk](http://www.roger-jones.co.uk)*

**C.W. MUNDY**

*Indiana, USA*

"You can be sure that every professional woodcarver will only use the highest quality tools available. Such is true for the wise, informed professional painting artist. Rosemary & Co handmade brushes are the absolute best in the market. Remember, you are only as strong as your weakest link! Rosemary Brushes are a must, from a beginner to a professional. You need the best, to get an edge in this market."

*[www.cwmundy.com](http://www.cwmundy.com)*

## **LORI PUTNAM**

*Tennessee, USA*

"When I first discovered Rosemary Brushes six years ago, I had no idea how very much they would impact my work. Having just the right brush to make just the perfect stroke has made all the difference. Their handmade, professional quality brushes are extremely affordable so I can always keep plenty on hand. Because millions of decisions must be made in painting, having the finest tools available is imperative. Rosemary & Co brushes provide me more freedom to create."

[\*www.loriputnam.com\*](http://www.loriputnam.com)

## **DAVID KASSAN**

*New York, USA*

"Each stroke we make with our brush on a painting, is driven by a deliberate thought and emotional response to the subject. This is why the brushes that we use to express these impressions are extremely important, they must represent the variety of our vision and become almost invisible to the process."

This is why I use Rosemary Brushes."

[\*www.davidkassan.com\*](http://www.davidkassan.com)

## **BILL DAVIDSON**

*Texas, USA*

"I have found Rosemary's Brushes to be my always go to brushes. They hold up well and I am a thick, scrubby painter. They have been my tools for 4 years. The more I use them and explore them the more I find different effects. In painting there are multiple edges and transparencies, created with different brushes."

[\*www.billdavidson.biz\*](http://www.billdavidson.biz)

## **ANDREW TISCHLER**

*Tararua, New Zealand*

"Rosemary & Co make the best artists brushes on the market. I have been painting professionally for 14 years, and I have found the quality of these brushes to be unparalleled. I feel that these brushes have opened up more possibilities for my art and have led to a better quality painting. My best advice to anyone looking at investing in a new set of artist brushes, don't waste your time going anywhere else!"

[\*www.andrewtischler.com\*](http://www.andrewtischler.com)

## **JOE FRANCIS DOWDEN**

*London, UK*

"Rosemary & Co make world class brushes. Rosemary's Watercolour brushes travel with me everywhere. I see fine brushes wherever I go, but Rosemary remains at the forefront of brushmaking globally. Thanks to Rosemary, many more people can afford top quality. I recommend them to professionals and students alike."

[\*www.joedowden.net\*](http://www.joedowden.net)

## **MORGAN WEISTLING**

*California, USA*

"Unsatisfied with the quality of brushes I was working with, I had heard of a brush maker in England, so I contacted Rosemary and we began to develop the longer haired flats that everyone loves so much. Quality is number one with Rosemary Brushes and through the years they have taken the art world by storm. From the Master's Choice to the beautiful bristles, I use them all. The brush is an extension of our hand and is our direct link to communication on canvas, why would anyone not want the best tool for that job?"

[\*www.morganweistling.com\*](http://www.morganweistling.com)

## **KIM MYERSON**

*Johannesburg, South Africa*

"When I saw all my overseas Facebook friends raving about Rosemary brushes, I had to try them. From the moment I held one and it pressed on the canvas, it was love at first touch. Since then I won't let my students use any other brush."

[\*www.kmyerson.com\*](http://www.kmyerson.com)

## **LAURA THOMPSON**

*The Florence Studio, Italy*

"We had tried so many brushes over the last 30 years and when we finally tried the Rosemary Ivories we were so impressed. While we, and our students at The Florence Studio, all love the brush quality what we really have come to appreciate is the philosophy of the company. Symi, Rosemary and all of their staff are quick to respond and help with suggestions and we feel they are so much an essential part of today's art community."

[\*www.theflorencestudio.com\*](http://www.theflorencestudio.com)

## SCOTT BURDICK AND SUSAN LYON

*North Carolina, USA*

"We've been using Rosemary's Brushes for many years now. It is so nice simply ordering what we need from them and know it will be perfect every time. Maybe the fact that it is a family run business that takes the time to meet and get to know the artists that use their products is what sets them apart. We think of them as part of our family and the love they put into making their brushes is the same love we put into our paintings."

[www.susanlyon.com](http://www.susanlyon.com)

## SANDRA STROHSCHNEIN

*Lake Michigan, USA*

"I work my brushes hard as a full time artist and Rosemary's brushes have exceeded my expectations on every level. There are no delays in shipping and the personal hands on service is simply the best!"

## JUSTIN HESS

*Director of JHess Studios, California*

"Whenever my students ask about Rosemary & Co Brushes I can only respond with enthusiasm! Their craftsmanship, customer service and personalities are unparalleled. The standards that Rosemary and Symi set for their own products are the very same I try to portray in my own work, as well as those I wish to impart to my students. Of all the brushes I've used throughout the years, I can honestly say that the quality of their Master Choice and Long Haired Chungking Bristle are the best!"

[www.jhessfineart.com](http://www.jhessfineart.com)

## BARBARA VALENTINE

*East Sussex, UK*

"Twenty six years ago I just couldn't believe how lucky I was to discover your brushes - the best one could get and yet at an amazingly affordable price."

## JOHN DOYLE

*London, UK*

"The brushes Rosemary makes are the finest I have used. They keep their spring and fine tips and, if cared for, they last for ever."

[www.johndoyleart.com](http://www.johndoyleart.com)

## GEORGE GALLO

*California, USA*

"Rosemary's Brushes are simply the best. Whenever I hold one I can immediately feel the difference. It doesn't matter if you're using the best paint on earth if your brush doesn't behave exactly the way it should. I can't think of a better endorsement than to say using these brushes has made me a better painter."

**Facebook: @TheArtOfGeorgeGallo**

## MICHAEL KLEIN

*North Carolina, USA*

"Rosemary & Co have set out from the start to create a top notch, hand-made brush that would compare or surpass anything the Old Masters would have used. They are affordable for any level of artist. I'm proud to work alongside a family company that upholds high craftsmanship."

[www.michaelkleinpaintings.com](http://www.michaelkleinpaintings.com)

## MICHAEL JOHN ANGEL

*Angel Academy of Art, Florence*

"I have used Rosemary & Co's brushes for years and they are perfect. My personal preference is for the Ivory series, but many of today's brilliant Realist painters prefer other types of Rosemary's; they are all brilliant. Our students at the Angel Academy of Art also use Rosemary's Brushes and are extremely pleased with their performance."

I cannot praise them enough."

[www.angelartschool.com](http://www.angelartschool.com)

## MICHELE DEL CAMPO

*Madrid, Spain*

"The brushwork is very important in my work. I only found out how to get a brush to do exactly what I wanted and get it to last for a long time when I discovered Rosemary's Brushes. This is not just a brand, it is a philosophy and a style of life: approachability and direct contact of the artist with the maker, expert advice, personal treatment, innovation within the tradition and according to our feedback, and a wide variety of models of brushes for just every necessity. I don't use other brands anymore."

[www.micheledelcampo.com](http://www.micheledelcampo.com)

## **JUDI TREVORROW**

*Truro, UK*

"I paint in Watercolour and Acrylic paint and I have been using Rosemary & Co brushes since the company set up. In my opinion they are the best quality and so very reasonably priced. I have no hesitation in recommending brushes from Rosemary & Co, and they are a first class company to buy from."

[www.juditrevorrow.com](http://www.juditrevorrow.com)

## **FRANKIE CUMMINS**

*Great Bedwyn, UK*

"Rosemary's brushes are the true aristocrats of the art materials world. They are beautifully crafted, and if looked after, they will last a lifetime. I have encouraged all my pupils to buy one, and they are never disappointed."

[www.paintingweekends.com](http://www.paintingweekends.com)

## **HENRIK ULDALEN**

*London, UK*

"Rosemary & Co has been a staple in my art production since I managed to get my hands on my first brush from their Evergreen Short flats series. I've since built up a sizable collection of brushes that covers all from miniature gouache to mural sized oil paintings. It's not often I come across a company that provides so much for their clients, not only in unrivalled quality, but friendly customer service. I used to think the quality of my brushes didn't matter, but I've come to realise that proper tools are paramount in my practice."

[www.henrikaau.com](http://www.henrikaau.com)

## **BEN MANCHIPP**

*Surrey, UK*

"I have used and recommended Rosemary Brushes for over twenty years. Superb quality and value across the entire range. Unbeatable."

[www.manchipp.com](http://www.manchipp.com)

## **CESAR SANTOS**

*Florida, USA*

"Rosemary Brushes are the bridge between my ideas and the canvas, they created the perfect tool of possibilities."

[www.santocesar.com](http://www.santocesar.com)

## **QUANG HO**

*Colorado, USA*

"Rosemary & Co has constantly been producing the finest brushes for artists by working with artists for as long as I can remember. Rosemary has produced a wide variety of brushes for every kind of touch and feel an artist needs for paint effect."

[www.quangho.com](http://www.quangho.com)

## **SORAYA FRENCH**

*Hampshire, UK*

"Since meeting Rosemary over thirteen years ago, her beautifully crafted brushes have been a staple of my art kit. I can recommend her brushes wholeheartedly and with absolute confidence to all my students and artist friends. In recent years the mother and daughter dream team have become a formidable force in the world of art materials and I wish them even more success at home and globally in years to come and feel privileged to also have them as my friends."

[www.sorayafrench.com](http://www.sorayafrench.com)

## **LEON HOLMES**

*Perth, Australia*

"The day I started using Rosemary's brushes changed not only the quality of my work, but also my life. Your brushes have a feel and spring to them like nothing I have ever experienced. Your personal friendly business ethics and ever prompt service has made dealing with you a true pleasure, not to mention our friendship, which is one I cherish dearly. I wish you continuous success.

Keep the good stuff coming."

[www.leonholmesart.com.au](http://www.leonholmesart.com.au)

## **JANE HUNT**

*Colorado, USA*

"I love Rosemary & Co brushes! In over thirty years of painting I've tried most brushes and these are by far the best in terms of quality, durability, and price. This small family business has superb customer service and handcrafts each brush with care and attention to detail. Rosemary's are the only brushes I recommend to my students and they are consistently surprised by how much the right brush can improve their work."

We are always looking to offer the most competitive shipping prices, these may change over time. See our FAQ's online for the current prices or email us for a shipping quote. We usually dispatch on the same day we receive your order.

.....

## MINIMUM PAYMENT

Due to the high costs of processing small orders we have had no choice but to implement a minimum order value of £10.00 (plus P&P).

# HANDMAKING *a FINE quality* BRUSH

All of our artists brushes are handmade from the finest quality materials which are sourced throughout the world by ourselves. Below shows the care and skill which goes into each and everyone of our brushes. Expertly made for you.

**1** *Having selected the amount of 'fill' tying off in the goblet.*

**2** *Fan out the brush to select poor hairs and remove.*

**3** *Finger manipulation to ensure belly will fall in correct place.*

**4** *Final inspection and measure to check correct 'length out'.*

*Each brush is handled 16 times before it reaches the artist's hand.  
From making to quality control and packing. We take pride in our product for you to enjoy.*

Rosemary and her team have been handmaking the finest quality artists' brushes for over thirty nine years.

# The **ROGER JONES** Brush Set

## A BEAUTIFUL 'MAGIC' TIP, PERFECT FOR WATERCOLOURS.

*This brush was designed by Rosemary and Roger and is used for all of Roger's Watercolours. The extra tip allows exact detail, whilst the typical belly of Kolinsky Sable hair enables fluid carrying capacity like no other.*
